

Spring Market Menu 2010

match
LONDON · MELBOURNE · IBIZA

We change our menu four times a year (in sync with the seasons) but some things will stay on all year round.

We source from London's best local markets and suppliers and we always buy local whenever we can.

We buy fresh every day and if we can make it ourselves in-house, then we do –

soups, stocks, sauces, salad dressings, marinades, burgers...

We source our ingredients from some of the best suppliers we can find in London, Suffolk, Devon and various bits of Spain, Italy and Asia. To avoid clogging up our menu with trendy 'provenance-sense' we have gathered together (using a dolphin-friendly net) in one handy place all of the food weasel words that we could have used elsewhere on this menu. We've left a couple in for now until we're sure you're getting the message about how good our stuff is.
